

How we **transformed** a barren
land into a **thriving** **community** of
EV enthusiasts

📍 Delhi, IN

To power up Delhi and encourage a cleaner mobility, **Bharat** and **Verde** devised a smart solution.

We successfully converted a
waste dump into an EV charging
station to **electrify**

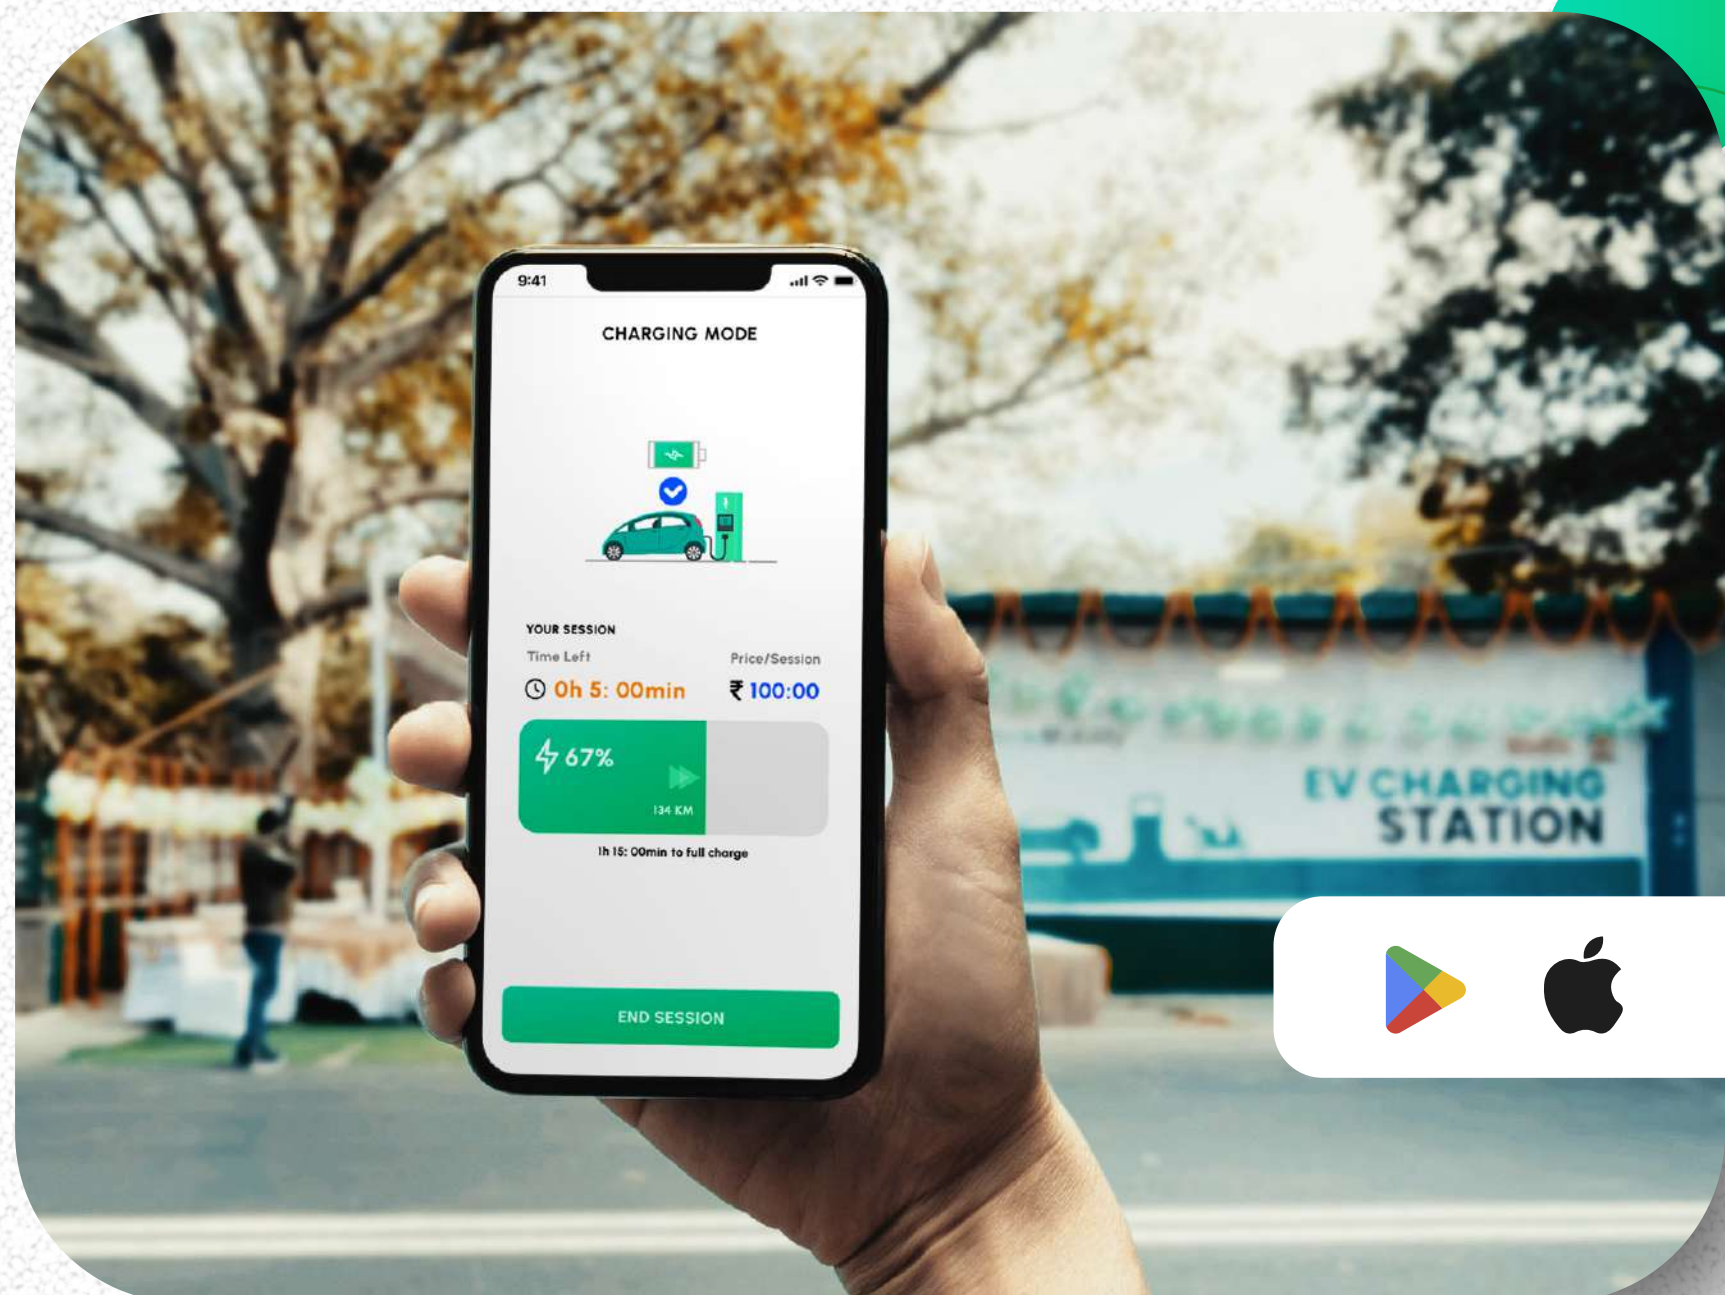

As a result of this initiative, 3 EVs
can now be simultaneously
charged by Verde Mobility
Air Charger at
the Dhalao site.

The EV user can even
manage and monitor the
charging progress remotely

via **Verde Mobility**

Life App

*Available in both App store and Play store
