

AC Single Gun Charger Controller

VerdeMobility's AC Single Gun Controller is a compact and reliable solution for building upto 7.5 kW AC charging stations with ease. With an on-board relay and single-phase metering chip, it removes the need for extra external modules, reducing costs and simplifying design for faster deployment. As an all-in-one platform, it also integrates key features such as support for 4.3" TFT touch LCD, energy meter, RFID authentication, and OCPP compatibility. With built-in Wi-Fi and 4G LTE connectivity, charger operations can be seamlessly monitored and managed through the CMS.

Key Features:

- One 7.5 kW Type 2 AC Connector
- Secure web socket connection supported
- Offline (local on and off) feature supported with RFID for home use
- Earth fault detection
- Over current, over voltage, under voltage, over temperature protected
- Emergency Stop Interface
- TFT 4.3\" LCD
- Secure Boot
- Secure Commisioning
- TLS 1.2 Supported
- OCPP 1.6J Compatible
- Battery backup support with Add on board
- LED indication for Presence of Input Supply, Error Indicator
- Solenoid Lock Support
- Onboard Class 1 metering
- External RCD interface supported
- OTA support
- RFID support
- Support for external contactors and MID approved meters
- Surge Protection

Specification

Input Supply	230 VAC+/-15% Single Phase
AC Input Connection	P + N + PE
Frequency	50 Hz
AC Output Current	32 A
Maximun Output Power	7.5 kW
Connector Type	Type 2 AC (IEC 62196-2), 3 - Pin
No. Of connector	1
Display	TFT 4.3" LCD supported (with external Add-on board)
Communication Network	GSM Modem (4G LTE fall-back to 2G) and Wi-Fi
Energy Measurment	Internal Single Phase Metering supported
Operating Temperature	-30°C to 70° C
Storage Temperature	0°C to 70°C
Humidity	5 to 95%
Standards Supported	IEC 61851-1, IEC 61851-21-2, REACH Approved, RoHS Approved
Dimensions(LxWxH)	224.27mm x 170.50mm x 50mm

Product Application

Public Parking Charging

Commercial EV Charging Station

Residential Charging

Helps to build a compact and rugged Charging Ecosystem
