

Syskara Studio

BY SYSTEM LEVEL SOLUTIONS

Key Capabilities

Configurable Linux Platform

Purpose-built embedded Linux for flexibility, security, and performance.

Industrial Connectivity

USB, Ethernet, SD card storage, RS-485, RS-232, UART, and CAN interfaces built in.

Any Screen, Any Size

Supports LCD displays from 3.5" to 55"+, with or without touch.

Drag-and-Drop UI Design

Create and deploy custom HMI screens quickly from a PC.

One Platform, Multiple Applications

Easily adapt for EV chargers, industrial machines, appliances, kiosks, and more.

Why This Matters

- Faster custom HMI delivery
- Reusable platform
- Broad addressable range
- Strategic self-reliance
- Future-ready supply chain
- Made in India

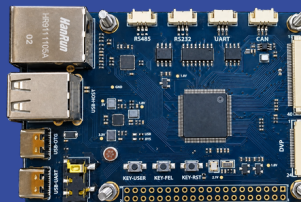

Platform Architecture Overview

Design Tool

PC-based drag-and-drop UI tool for screen flow and widget configuration.

Compute Hardware

- In-house compute board
- Embedded Linux
- Industrial I/O: RS-485, RS-232, UART, CAN, USB, Ethernet, and SD card

Display Interface Layer

Screen size agnostic from 3.5" to 55"+, with support for capacitive touch or non-touch displays.
